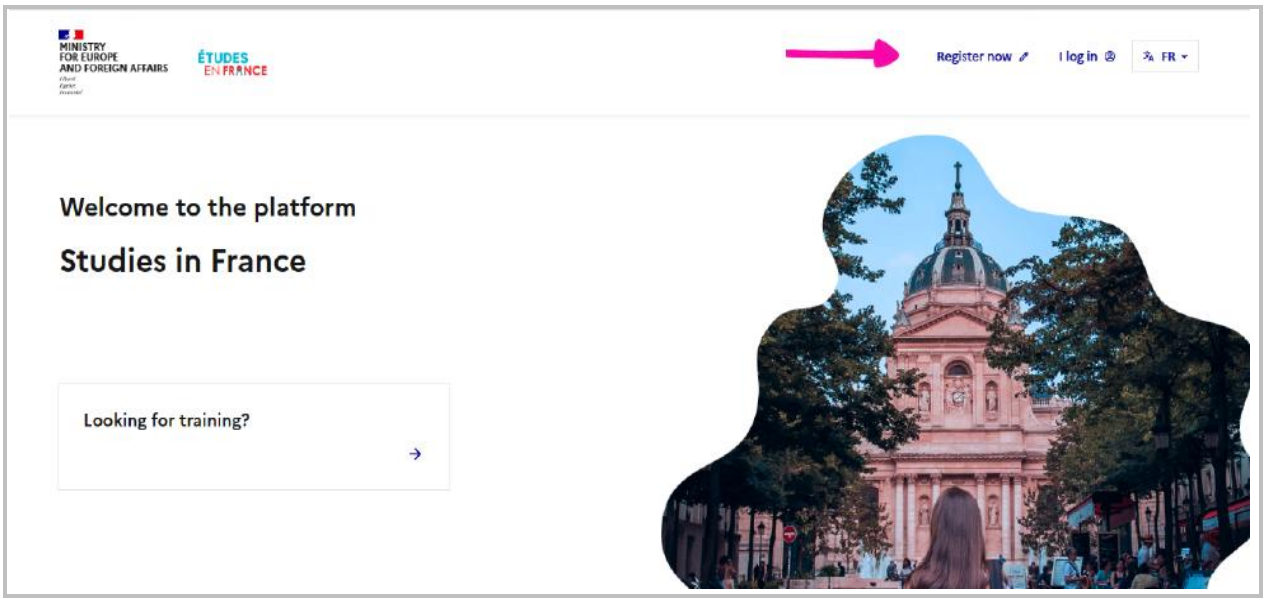
How do I proceed for French visa application procedure
after my official programme admission on eCandidat application platform?

General comment
At all times submit **both university ADMISSION** (to be downloaded by you on eCandidat platform**), and the ANNEX s**ent by our VIBOT programme administration to you, as supporting document for your French visa application process. The provided details would enhance processing of your French visa application.

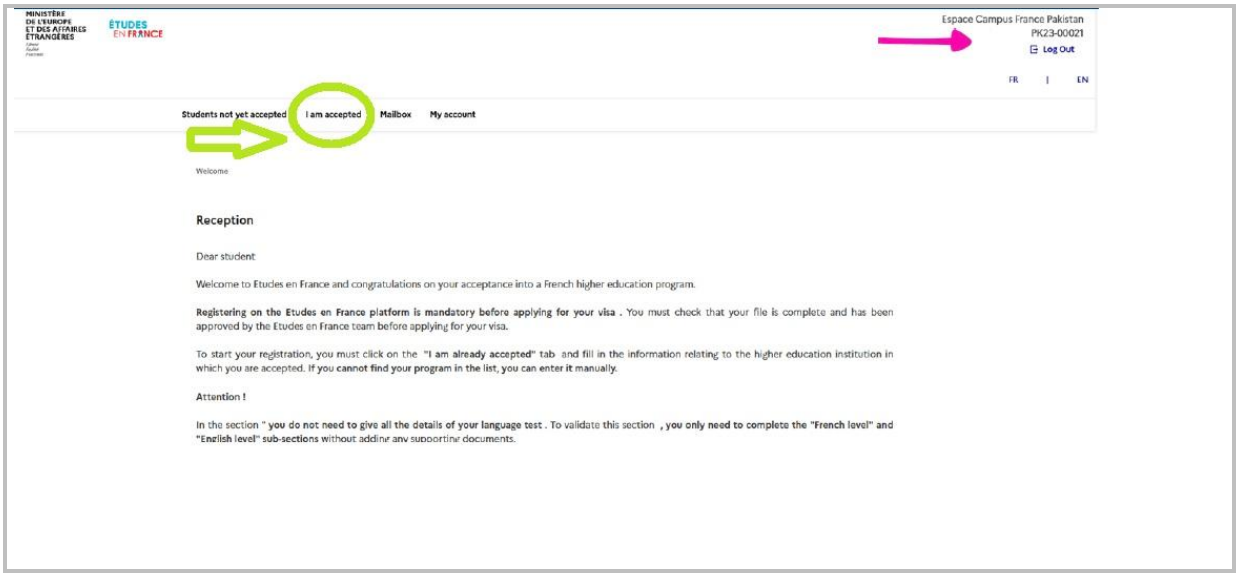
After admission into our VIBOT Master in Computer Vision programme and your confirmation of participation through the eCandidat platform, there are two situations:

- **If you're residing in a country which falls under the Campus France procedure** Study in France/ Etudes en France:

  1. **SIGN UP** (top right of the page) on the Campus France **Study in France** on-line platform, create your account and set the local Campus France, applicable to you and enter the requested information.
     Link:
     https://pastel.diplomatie.gouv.fr/etudesenfrance/dyn/public/authentification/login.html



2. Once created, **SIGN IN** to your account and choose **"I am accepted"**. Follow the platform's instructions from there.



- **If you're <u>not</u> residing in one of the <u>Campus France procedure country list</u>**, you can directly see the French Embassy/Consulate to start your French visa application process.
